

*“People forget facts, but they remember stories”
- Joseph Campbell*

Let’s Talk About Your Story

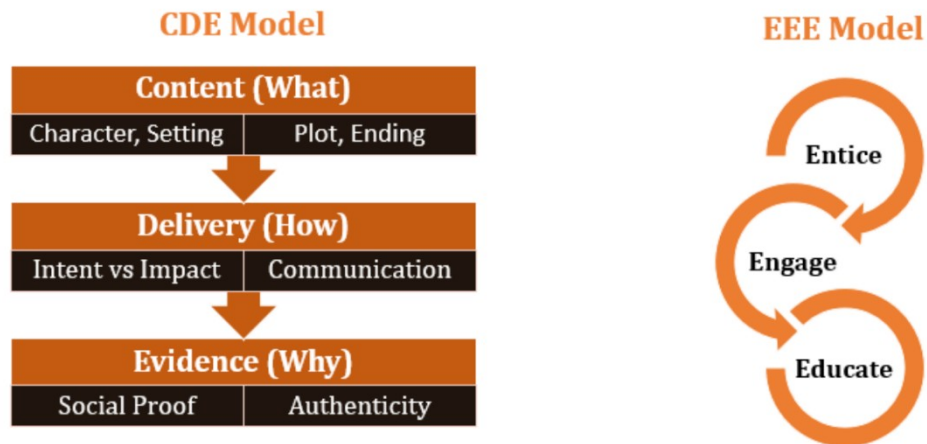

Stories have power. Stories build connection. Stories create a sense of belonging.

The **Art** of **Corporate StoryTelling** lives in anyone who has the passion & hunger to learn. Stories delight, enchant, touch, teach, recall, inspire, motivate & challenge. They help us understand & empathize. Effective StoryTelling imprints a picture on our minds.

According to **research**, 92% of consumers want brands to make ads which feel like a story. Consequently, stories often pack more punch than sermons. It has been found that facts are approximately 22 times more likely to be remembered if they are part of a story.

StoryTelling Frameworks

At BlewMinds, we work on the ‘Inside’ to make stories powerful on the ‘Outside’ so that powerful StoryTelling becomes your second nature. We focus on the individual side of Personal Branding, the business side of Organization Branding & the market side of Social Media Branding. These 3 tenets put together become a powerful deployment ground of StoryTelling to impact, influence & inspire.

Simply put, Corporate StoryTelling is the art of communicating feelings, data, information, using experiences & narratives to express yourself effectively in the corporate world or even in a professional setting. Corporate StoryTelling requires creativity, connecting the dots, imagination, being honest with oneself, self-disclosure & the deep ability to bare one’s heart completely without any fears of vulnerability.

	StoryTelling is a powerful medium of ' Experiential Learning ' since it emulates particular responses from the brain & 'lights up' more parts of the brain than factual reporting & logic.
	StoryTelling commands attention from an otherwise wandering audience & hence improves retention of what is being told, shared or narrated.
	StoryTelling can change the brain's chemistry, allows the listener to learn vicariously & discover lessons seemingly on their own.
	StoryTelling can help create an emotional bond due to the vulnerability attached to it as through a Story, a listener relates to the journey of imperfections shared.
	StoryTelling helps create a sense of purpose in employees of an organization by encouraging them to share their personal journeys.
	StoryTelling builds relationships with the audience by sharing stories & making compelling marketing campaigns.

Effective StoryTelling can feed the human mind & heart which crave emotional connection. We are not moved to action by mere data dumps, dense PowerPoint slides or Spreadsheets packed with figures. When we see or hear factual arguments, we become logical, critical & skeptical. But when we are absorbed in a good story, we drop our guards!

Paradoxically, today, Corporate StoryTelling is also about communicating our logic, data, heavy information, facts, figures with stories woven together with powerful narratives.

Let's Talk About Your Story

We help **our** clients master the **Art** of StoryTelling by integrating Logos (logic, reason, proof), Pathos (emotions, values, beliefs), & Ethos (credibility, **emotions**, trust). Our Global Story Coaching frameworks are designed to refine your StoryTelling skills, enhance your ability to build influential relationships, & improve stakeholder management. Through these frameworks, we provide long-term **recall** for developing persuasive narratives that echo across diverse audiences & drive meaningful connections.

StoryTelling at BlewMinds entails the following offering

Brand StoryTelling

Our **Brand StoryTelling** programs equip individuals to weave narratives which aid engagement of specific audiences, shape their & their company's identity beyond traditional Marketing methods. We employ effective StoryTelling strategies to powerfully communicate information about your product, brand, or company. Brand StoryTelling helps achieve:

- Building Brand Value
- Building & sustaining Brand Recall
- Enabling Brand Identity
- Improving Brand Resonance

Data StoryTelling

Our **Data StoryTelling** programs help clients effectively communicate significance of data, highlighting its intelligent relevance & practical impact. We aid you with breaking down enormous amount of data into simplified formats, leading to insightful stories & analytics to influence diverse Target population. Data StoryTelling helps achieve:

- Data Simplification for meaningful impact
- Communicating Data powerfully in the form of Stories
- Engagement & Retention
- Enhancing Collaboration using Analytics

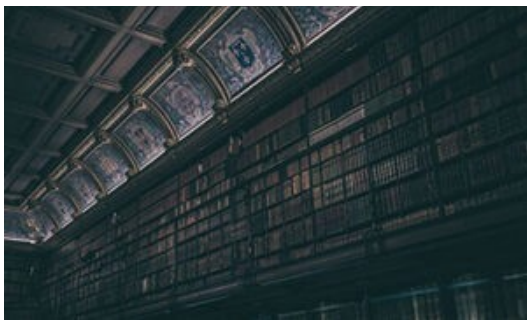

Leadership StoryTelling

Our **Leadership StoryTelling** programs help you define your Leadership Value Proposition effectively through StoryTelling by exposing you to intelligent Leadership StoryTelling Frameworks. We help you clearly articulate what sets you apart, how you can stand out as an impactful leader for your stakeholders & audience. Leadership StoryTelling helps achieve:

- An Inspiring Vision
- Better understood & implemented Values
- Bonds & Connections
- Changing Mindsets

Organisational StoryTelling

Our **Organizational StoryTelling** programs enable you craft captivating narratives about your organization, integrating Vales, Beliefs, Behaviours, Systems & Cultural Artifacts. This StoryTelling approach focuses on connecting, engaging, & inspiring stakeholders through meaningful stories. Organisational StoryTelling helps achieve:

- Cultural Cohesion
- Customer Connection
- Employee Engagement
- Effective Communication
